MOAC Unveils Rubber Innovations for Thailand's Irrigation System

Mr. Vinaroj Supsongsuk, Permanent Secretary of the Ministry of Agriculture and Cooperatives (MOAC), presided over the press briefing and presentation of the Rubber Innovations for Thailand's Irrigation at Royal Irrigation Department (RID). The rubber innovation is a collaborative initiative to develop and expand the use of natural rubber in irrigation works between RID and the Rubber Authority of Thailand (RAOT). The event featured presentations on innovative products, including the RID-UNITED rubber floating barrier for water hyacinth control and HDPE pipes blended with natural rubber for water conveyance and drainage.

MOAC is committed to support government policies that prioritize the promotion of natural rubber usage in government agencies to increase domestic rubber consumption, to stabilize rubber prices, and to improve the quality of life of rubber farmers and the public through diversified utilizations of rubber products.

The event was attended by Mr. Suriyapon Nuchanong, Director General, Royal Irrigation Department; Dr. Perk Lertwangpong, Acting Governor of the Rubber Authority of Thailand; Mr. Krit Uttamawetin, Deputy Permanent Secretary of the Ministry of Agriculture and Cooperatives; as well as executives, officials, and relevant personnel.
